Neighborhood Beautification

Updated January 26, 2016

City of Milpitas Housing Rehabilitation Loan Program

- The City of Milpitas is pleased to offer zero to three percent (0-3%) interest loans to income eligible homeowners to help finance the cost of home repairs.

How is the program funded?

The City of Milpitas uses federal Community Development Block Grant (CDBG) funds to provide loans to low and very-low income homeowners with the goal of preserving the City's neighborhoods through the conservation of existing housing stock. The loans are for eligible improvements identified through property inspections.

How does this program work?

- Determine if household is income eligible
- City staff will conduct housing inspection with consent of homeowner
- City staff prepares the work specification, necessary loan documents and present case to City's Loan Committee
- Upon approval, homeowner or City solicits three bids from licensed contractors

Who is eligible?

The program is designed to help low and very-low income Milpitas homeowners with a household gross income at or below 80% of the county median income as determined each year by HUD. Income guidelines are subject to change annually.
